

Drone over the scene

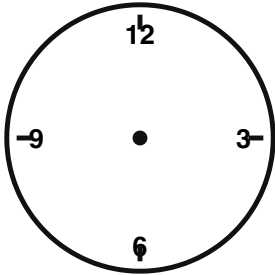

Print both pages. Cut the dashed card. Laminate it. Clip it to the board. Page 2 stays with the run packet.

FIRE / EMS POCKET CARD

DRONE OVER THE SCENE

PEOPLE IN DANGER → 911 FIRST. AIRCRAFT IS SECOND.

CLOCK FROM WHERE YOU STAND

Mark the clock. Nose heading if you have it.

HEIGHT GUESS

☐ rooftop ☐ treetop ☐ 100–400 ft ☐ higher ☐ unknown

UNDER IT NOW

☐ People

☐ Apparatus

☐ LZ / landing

☐ Power lines

☐ Fuel / hazmat

☐ None seen

LAST VISUAL

☐ I see it now ☐ Lost it at ____ : ____

REMOTE ID IF A DISPLAY SHOWS ONE

Say this to command: “Drone over [clock], heading [], height [], over [people / apparatus / none]. 911 [called / not].”

Do not chase. Do not launch at it. Receive-only. Silence on radios is not an empty sky.

CUT ON THE DASHED LINE · LAMINATE · DARK SKY SYSTEMS LLC · DARKSKY.SYSTEMS

Drone over the scene — write-down

Fill this after the size-up. One named place. One window. Ink, not memory.

INCIDENT / RUN		DATE	
TIME FIRST SEEN		TIME LAST SEEN	
YOUR POSITION			
CLOCK		HEADING	
HEIGHT GUESS		COLOR / LIGHTS	
UNDER IT			
PHOTO	☐ Yes ☐ No	FROM WHERE YOU STOOD	☐ Yes ☐ No
REMOTE ID NUMBER			
WHO YOU TOLD			
WHAT YOU SAID			
NOTES			

HOW TO USE THIS CARD

- 1. People in danger: 911. Then this paper.
- 2. Clock from your boots. Do not walk the block to get a better shot.
- 3. Write the time you first saw it. If you lose it, write the time you last saw it. Do not freeze a last plot as live.
- 4. If a receiver screen shows a Remote ID number, copy it. If it does not, leave it blank.
- 5. Give command one sentence. Then stay on your assignment.
