

# Unauthorized drone incident file

Photos, time, direction, RID number if visible, who was called. One named place.

1. If people are in danger, call 911 first.
2. Write what you saw. Do not chase. Do not fly at it.
3. Photo from where you already stand if you can. Do not leave people to get a better shot.
4. Remote ID number only if a display showed one. Do not invent it.
5. Name who you called. This paper is not a security sit and not a DFR program.

|                          |  |
