

Jobsite drone log

For one named job. Superintendent fills it. Keep it with the job file.

JOB NAME		ADDRESS	
DATE		SUPERINTENDENT	

1. If people are in danger, call 911 first.
2. Do not chase it. Do not fly at it. Do not tell the crew the air is empty because a radio is quiet.
3. Write the line. Photo if you can from where you already stand.
4. Call who the job already named — GC, owner, PD if asked. This paper does not make Dark Sky Systems LLC the security vendor.
